## PREFACE

All praise be to Allah, and may peace and blessings of Allah be upon his Prophet, Muhammad. About the Qur'an, Allah says very explicitly in His Book, " (This is) a book which We have sent down to you (O Muhammad ﷺ), full of blessings that they may ponder over its verses, and that men of understanding may receive admonition (i.e., take lessons) [38:29]. " If we don't understand the Book, how can we ponder on its verses, especially when we listen to them during everyday prayers and recitations!

Ahadith also emphasize the learning of the Qur'an. The Prophet of Allah, Muhammad, peace be upon him, said, "The best among you are those who learn the Qur'an and teach it (to others)" [Bukhari].

It was a blessing of Allah that almost 15 years ago, I had prepared a booklet, "80% of the Qur'anic Words" to provide some help in fulfilling the above-mentioned objectives. Alhamdulillah, many people benefited from it. It was translated into almost 15 languages. Different software, blogs, and apps were prepared based on the booklet.

Recently, more options for digitized data of the Qur'an became available. In view of this, the word lists in the booklet are checked, revised, updated, and more words are added taking the total count to 85%.

Please make sure to have “Selected Verbs of the Qur'an” along with this booklet (mentioned in Point No. 13 below) and “All Verbs of the Qur'an” for a complete set.

Alhamdulillah this booklet has served as the starting point of different courses that we have developed and which are now implemented in almost hundreds of schools. You may find all these courses at our website [www.understandquran.com](http://www.understandquran.com).

Please keep the following points in mind while studying this booklet.

1. **No. of words and their meanings:** The words given in this booklet occur 65912 times (85.1%). The Qur'an has 77430 words (approx).
2. **Most common meanings:** For each word, only the most common meanings are given. Some words may have other meanings too, depending upon their context. However, the number of such words is very small.
3. **More than one meanings:** A comma is placed between the meanings if they are similar, and a semicolon is placed between them if they are different. For example: (above , up (عَلَى) and (eye; spring عَيْن).
4. **Most commonly occurring words:** The words listed in the first six pages occur very frequently. Some of them occur in combination with each other. They constitute a whopping 41.1% (31852) of the total words.
5. **Word count on each page:** At the bottom left of the page, total is provided for the number of times the words of that page occur in the Qur'an. The bottom right shows the

percent of the total Qur'anic words that have been covered up to that page.

6. **Nouns and verbs:** The number next to the noun (pages 7-14) or the verb (pages 15-33) shows the number of times it occurs in its various forms in the Qur'an.
7. **Arrangement of word lists:** Words given on pages 1 through 14 are arranged according to the topic. However, some of these words could not be placed under any of the topics and therefore are placed at the end of any of the word lists wherever space was available.
8. **Arrangement of verbs:** Verbs given on pages 22 through 33 are arranged according to their types to facilitate the learning.
9. **Vowel sign on the last letter:** If the last letter of a word does not have a vowel sign (ـَـ), it indicates that it is a noun and therefore any vowel sign can come on it depending upon the context in which it is used. If ال occurs before the noun, then Tanween (ـَـ) is not used.
10. **Arrangement of words:** In almost every case, the words are arranged alphabetically to make the search easy.
11. **Brief conjugation of verbs:** For each verb, the past tense, the imperfect tense, the imperative, the active participle, the passive participle and the verbal noun are provided. It is assumed that based on this information, you can reproduce the whole verb table. Sample tables are provided at the end of this booklet.

12. **Active and passive:** Verbs are given in معروف forms (active voice). For each type, a sample مجهول form (passive voice) is given in the last.
13. **Dual and Feminine forms:** The word forms related to dual number and feminine gender are used sparingly in the Qur'an. In normal cases, singular nouns are made dual by adding ان or —ين at the end.
14. **Detailed conjugation of verbs:** A star (\*) is placed next to selected verbs. Different forms (conjugation) of such verbs are provided in detail in a separate book, "Selected Verbs of the Qur'an." We strongly recommend you to have another book "All Verbs of the Qur'an" too for complete the set on verbs.
15. **Silat-ul-fa'la (صِلَاتُ الْفِعْلِ):** Just like in any language, some verbs and nouns of action are followed by a preposition. For example, believe in: آمَنَ بِ. A change in the preposition may change the meanings too. for example, get; get in; get at; get by, get off, get on, etc. Selected verbs along with changing prepositions are given on page no. 34.
16. **References:** The first version of the book was prepared using different sources. Most important one among these is the book قائمة معجمية لألفاظ القرآن الكريم ودرجات تكرارها prepared originally at the Arabic Language institute of King Saud University by Dr. Muhammad Hussain Abulfatooh and published by Maktaba Lebanon, Lebanon (1990).

Many people have contributed in the compilation and review of this booklet. May Allah reward them all. I would like to thank my wife, Tabinda Tahseen, and children Sulaiman, Samah, and Usamah for their patience and cooperation. Special thanks to Dr. M.A. Mohiuddin and also to Br. Tariq Aziz who has been always ready with his database expertise to help us in our different tasks. Our team at Understand Al-Qur'an Academy, specially Aamir Irshad Faizi, Kafeel Faizi, Obaidullah Nadwi, Furqan Falahi and Irsahd Alam Nadwi helped me in revising this.

May Allah protect us from errors and forgive us if they have occurred in this booklet. If you find any error, please notify us so that it can be rectified in future editions. May Allah reward you for the help.

## VISION OF THE ACADEMY

- Bring Muslims back to the Qur'an and help in bringing up a Qur'anic generation who recites the Qur'an and Hadith, understands it, practices it, and conveys it to others. The objective is not to produce scholars of Qur'an and Ahadith. Alhamdulillah, many institutions are already doing this work. The objective of the academy is to make ordinary Muslims understand the basic message of the Qur'an and Ahadith.
- We make every effort to use new teaching techniques thereby making the process of learning easy and simple.
- To present Qur'an as the most interesting, the most relevant book for day-to-day activities as well as the most important book for success in this life as well as in the hereafter.

## MISSION OF THE ACADEMY

- Teach the Arabic language to understand Qur'an e Majeed and Ahadith in the easiest possible way. Three different approaches are being developed for three different groups: (1) children; (2) youth; and (3) the elderly population.
- Produce the tools and resources for creating an environment of learning.
